We cut down all the trees with out any sorrow
We burned and slashed away without any shame
We used up what we could like there's no tomorrow
But we never stopped to listen to her pain

Mother find it in your heart to forgive us
Even though we stepped across the line
I don't blame you if you turn your back against us
But She says People you aint no friend of mine

CHORUS

For so long now we've just lost all connection
We stumbled long and hard and lost our way
The life we're living in needs some correction
I don't want to hear you tell me
People You ain't no friend of mine

Forgive me for not listening to your voices
For forgetting that we're really part of you
For the times we looked around and didn't see it
But don't say People You ain't no friend of mine

CHORUS

I'm sorry for the holes we put into you
For the violence that my kind has set on you
You gave us all we need and I love you
Please don't tell me You ain't no friend of mine
